

How to log-in to your laptop when you're not at school

<p>1. Click on the wifi icon in the bottom right corner of your computer. Log-in to your home network. Click box to connect automatically.</p>	
<p>2. Restart your computer</p>	
<p>3. You may have to restart it a couple of times for "Sign-in options" to appear. When it does select that.</p>	
<p>4. Then select the red shield and log in with your school username and password. It may take up to 15 minutes to load the first time.</p>	
<p>5. For all future sign-ins, "Sign-in Options" should appear when first turned on. If not, make sure you are connected to your home network, that you've selected 'connect automatically' and then restart the device. It should reappear, click that, then the red shield, and sign-in.</p>

Setting up your Web Browser

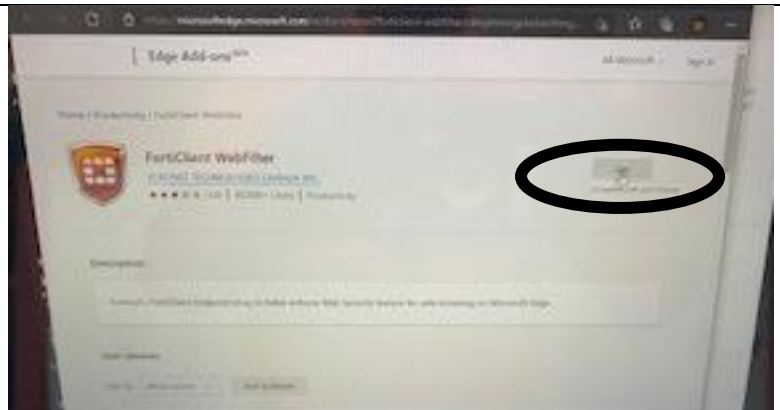

1. This notification should appear in the bottom right corner, click it

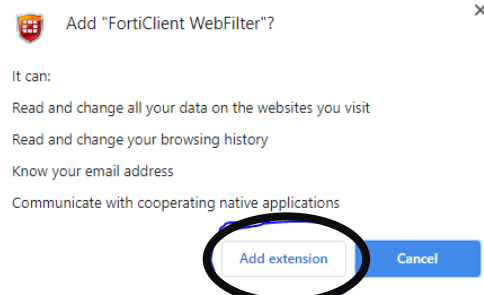

2. You will be prompted to add a web filter extension, click 'Add to Chrome' or 'Microsoft Edge':

3. Wait until the page loads (this may take a while) and then on the top right corner click on "Get" to install the Microsoft Edge or Google Chrome extension. You may need to do this for **both** web browsers.

4. Select 'Add extension' from the pop-up, if asked to 'Turn on sync' do not do it.

5. You may be all set, or you may be prompted to enable the extension, click 'Enable this item'
